

Trouble Shooting Wifi Connection

Turn on ColorControl GX to begin.

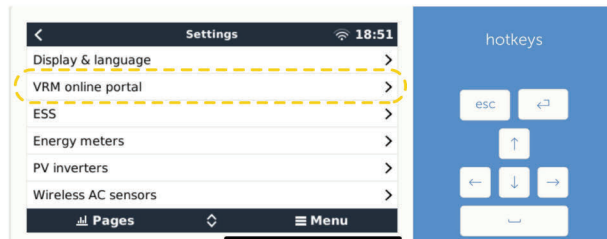

- 1) First, go into "Settings"
Select "Remote Console"

- 2) Select "Disable Password Check"
Back out to main menu.

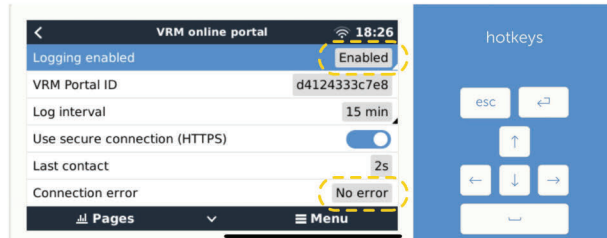

- 3) Select "VRM Online Portal"

- 4) Ensure "Logging Enabled" says "Enabled"

Note what is reported in connection error.

- 5) Scroll down to VRM two way communication.
Ensure this is selected.
