We install on all coaches!

FUTURE SOLUTIONS

Upfit Process

What happens after I submit an inquiry form?

SCAN TO START AN UPFIT FORM

STEP 1
Fill out and submit an Upfit Form. This crucial part of the process gives us a baseline of what kind of rig you have and what your energy goals are.

STEP 2
Our team will reach out via email with system package options to build from. After choosing a starting package, our team will reach out via email to schedule a call regarding your submitted form.

STEP 3
During the phone call, our team will discuss your customized system options and answer any questions. This step is where any system adjustments or customizations will be noted.

STEP 4
Following the phone call, you will receive an email with the system information. Once you choose and approve the system package, we will schedule an appointment for your upfit.

Installs are typically Monday through Friday and take 1-5 days to complete, depending on the scope.

STEP 5
You will receive an email quote for your system components and labor. Submit your down payment to lock in your upfit date.

STEP 6
Drop off your coach at the scheduled appointment date. Drop off starts at 8am EST.

STEP 7
When the upfit is complete, the team will give you a comprehensive walk-through and answer any questions.

THAT'S IT!

Enjoy your new travels with your #FutureSolutionsUpfit and be sure to tag us in your adventures!
